Beirut– Lebanon

Full-Stack Developer with a strong foundation in PHP, React, and Angular. I specialize in building dynamic, scalable web applications with a focus on clean code and user-friendly interfaces. With a solid academic background from Saint Joseph University of Beirut, I bring a well-rounded approach to full-stack development and a passion for continuous learning and modern web technologies.

Experience

Integrated Digital Systems- IDS

Full Stack Web Developer

September 2024 – Present

- Developed and maintained web applications using PHP and Laravel, focusing on performance, clean architecture, and scalability.
- Built and customized WordPress themes and plugins to meet client-specific needs and improve site functionality.
- Integrated third-party APIs and handled back-end logic to support dynamic features and seamless user experiences.

Internship at ProfitIsle

Unit Testing / Integration Test

July 2023 – Sept 2023

- Conducted unit and integration tests using JUnit and Selenium. Developed test cases to ensure code reliability and collaborated with developers to identify and resolve issues.

Personal Project

Recipe Sharing Platform

Built a website with **React** and a mobile app with **React Native** for sharing and discovering recipes. Developed the **backend in Laravel** with an admin panel powered by **Open Admin** for managing content and users.

Features:

- **User Authentication:** Implementing registration and login via email/password.
- **User Profiles:** Allowing users to create and modify profiles.
- **Recipe Management:** Enabling users to add, edit, and delete recipes with detailed information.
- **Interactivity:** Including features such as liking, commenting, rating, and saving recipes, with notifications for user interactions.
- **Search and Navigation:** Allowing users to search recipes by tags, ingredients, keywords, or category, with sort and filter options available.
- **Admin Panel:** Managing content and user interactions using Open Admin.

EDUCATION

Bachelor of Science in Computer Science - Saint Joseph University of Beirut USJ

Sept 2021 - July 2024
